

**AGENDA  
CITY OF LEXINGTON  
REGULAR COUNCIL MEETING  
SEPTEMBER 16, 2021– 7:00 P.M.  
9180 LEXINGTON AVENUE**

**1. PLEDGE OF ALLEGIANCE**

**2. CALL TO ORDER:** – Mayor Murphy

- A. Roll Call - Council Members: DeVries, Harris, Hughes and Winge

**3. CITIZENS FORUM**

This is a portion of the Council meeting where individuals will be allowed to address the Council on subjects which are not a part of the meeting agenda. Persons wishing to speak may be required to complete a sign-up sheet and give it to a staff person at the meeting. The Council may take action or reply at the time of the statement or may give direction to staff for future action based on the concerns expressed.

**4. APPROVAL OF AGENDA WITH CHANGES AND CORRECTIONS**

**5. STORM WATER FEASABILITY STUDY PRESENTAION** **MSA Consultant**  
**pp. 1-18**

**6. LETTERS AND COMMUNICATIONS:**

- A. Centennial Lakes Police Department Media Reports 8-11 through 9-6, 2021 **pp. 19-36**
- B. City Report – August 2021 **pp. 37-41**
- C. North Metro TV – August 2021 Update **pp. 42-48**
- D. Metropolitan Council 2022 Environmental Services and Charges **pp. 49-52**
- E. August 19, 2021 Council Workshop meeting minutes **pp. 53-54**
- F. September 2, 2021 Special Council Workshop meeting minutes **pp. 55**

**Consent Agenda:**

The Consent Agenda covers routine administrative matters. These items are not discussed, and are approved in their entirety pursuant to the recommendations on the staff reports. A Council Member or citizen may ask that an item be moved from the Consent Agenda to the end of section 7 of the agenda in order to be discussed and receive separate action.

**7. CONSENT ITEMS:**

- A. Recommendation to Approve Council Minutes:  
    Council Meeting – August 16, 2021 **pp. 56-59**  
    Council meeting – September 2, 2021 **pp. 60-62**

- B. Recommendation to Approve Claims and Bills:

**under separate cover**

**Action Items:**

These items are intended primarily for Council discussion and action. It is up to the discretion of the Mayor as to what, if any, public comment will be heard on these items. Persons wishing to speak on discussion items must complete a sign-up sheet and give it to a staff person at the meeting.

**8. ACTION ITEMS:**

- A. Recommendation to approve Fire Department Equipment Purchases not to exceed \$12, 552.00 **pp. 63-64**
- B. Recommendation to approve Business License Renewal **pp. 65**
- C. Recommendation to approve Special Event Permit to Jennifer Everson for Centennial Boys Hockey Blue Line Club fundraiser (at Boulevard Bar and Grill) on September 18, 2021 from noon to 4:00 pm. **pp. 66**

**9. MAYOR AND COUNCIL INPUT**

**10. CLOSED SESSION**

This portion of the meeting is closed pursuant Minn. Stat. Section 13D.05, subd. 3(b), and is permitted by the attorney-client privilege to discuss legal aspects of options related to the interconnected water and sewer with the City of Blaine. This portion of the meeting is also closed pursuant Minn. Stat. Section 13D.05, subd. 3(c), and is permitted to determine the asking price for, and to develop or consider offers or counteroffers for the purchase or sale to parts of the interconnected water and sewer with the City of Blaine.

**11. ADMINISTRATOR INPUT**

**12. ADJOURNMENT**

/mv

 **MSA** Memo

---

**To:** City of Lexington, Minnesota  
**From:** Eric Thompson, PE, Amber Converse, Sarah Morrison  
**Subject:** Stormwater Utility Feasibility Study for the City of Lexington, MN  
**Date:** September 1, 2021

---

The City of Lexington requested MSA to review their current stormwater utility rate and structure, and to recommend potential alternatives to support their evolving stormwater program. Currently, the City of Lexington utilizes a Flat Rate Structure; this report is designed to inform the city about the benefits of transitioning to a Unit Equivalent Residential Unit (or ERU) Based Structure. An ERU based structure will shift the burden of cost from the residential properties to the non-residential properties, which traditionally are higher contributors to the stormwater infrastructure.

I. Introduction

Proper Stormwater management, by and large, goes unnoticed in a community. However, as with water supply and wastewater treatment, the stormwater management system is an important element of the infrastructure of any municipality, and a poorly functioning system can negatively impact the lives and livelihood of the community. While flood protection is a large component of stormwater management, there are several additional elements such as routine drainage and water quality management which also must be considered.

The City of Lexington is responsible for collecting, storing, and conveying rainfall and snowmelt runoff in a manner that is safe for the public and does not harm the environment. Construction and maintenance of the facilities to properly manage stormwater is an expensive and long-term cost. Under a stormwater utility fee system, property owners pay for the stormwater program based on the relative amount of runoff generated by their property. A stormwater utility fee system is a dedicated long-term funding source that provides for community-wide control and management of stormwater. The City currently utilizes a flat rate structure, charging residential properties one value, and commercial properties another slightly higher value based on a simple property use designation. The existing system of funding stormwater management according to

this basic designation has little relationship to the stormwater management costs associated with the services to safely collect, convey, treat, and dispose of stormwater runoff.

## II. Types of Utility Rate Structures

Stormwater utilities charge fees based on the degree to which a particular parcel generates stormwater runoff. A property with more impervious area generates more runoff, and therefore puts more demand on a publicly owned stormwater management system than a property with less impervious area. Many utilities use the impervious area on each individual parcel as a measure of system 'usage' much like a water meter measures usage in a water utility. Currently, the City uses a flat rate structure as detailed below.

- a. **Flat Rate Structure:** The simplest way to structure a stormwater utility is to simply charge each parcel a flat rate. The advantage of this approach is that both start-up and ongoing utility administration costs are low. The disadvantage is that charge does not reflect stormwater program use and is generally not defensible if challenged in court. This is the system currently used by the City.
- b. **Measured Area Structure:** Some stormwater utilities base customer charges on the actual measured amount of impervious area (and sometimes pervious area) per property. This is arguably the most accurate and equitable method for establishing a utility rate. However, this is also the most rigorous measurement method which incurs the highest costs for upkeep.
- c. **ERU-Based Structure:** A balance between the Flat Rate and Measured Area utility rate structures is the 'Equivalent Residential Unit' (ERU) structure. Residential properties typically represent the largest number of parcels in any municipality and compared to non-residential properties, the per-parcel-impervious-area is much less variable. Because of this, many communities charge a flat rate for residential properties. The ERU size is determined by calculating the average amount of impervious area for all residential parcels in the community (by evaluating a statistically significant random sample set). Non-residential parcels pay a fee based on the ratio of the impervious area on the parcel relative to the impervious area of the ERU. Undeveloped properties (with no impervious area) typically pay only a small (sometimes zero) amount for administration of the utility.

ERU-based rate structures are an attractive rate structure method because of their ability to provide a reasonable balance of equity of charge distribution and low overhead costs. In communities with large variations between residential parcels, this may not be the most equitable option, but given the relative uniformity throughout Lexington, it is MSA's opinion that this would be a beneficial system to implement.

- d. **Other Rate Structures:** There are methods for assessing stormwater utility rates other than those described above, however they are very rare and comparatively complex and so are not

described here. MSA can provide additional information on other rate structures if requested by the City.

III. Determining Current Land Use in Lexington

The first step in establishing any stormwater billing rate system is to determine current land use classifications. Anoka County provided tax parcel boundaries dating from 2020. Information available from this database was combined with visual interpretation from aerial photographs (2020) to determine an approximate land use classification. Land use was grouped in six (6) categories on a per-parcel basis for use in the Stormwater Utility:

- Single Family Residential (SFR): Single-Family Residence
- Duplex Residential: Residences with two units per parcel
- ½ Duplex Residential: Residences with one half of a duplex unit per parcel
- Multi-Family Residential (MFR): Any residential unit categorized by city as an “apartment” and/or with 3+ dwelling units. This includes parcels with mobile homes.
- Non-Residential (NR): Any developed property that is not residential in use
- Undeveloped (U): Land in a relatively unaltered, natural state (no impervious area); this often includes undeveloped lots

Parcels that appeared to be associated with SFR homes but had auxiliary structures (e.g. a garage, storage shed, etc.), were classified as undeveloped, since it is assumed that the SWU rates for these parcels would be covered by the associated SFR parcel.

There are 618 parcels within the City of Lexington city limits. **Figure 1** shows this city-wide land use, and **Table 1** lists the land area associated with each classification.

Land uses were also verified against the City of Lexington’s customer list provided to MSA, which will be covered in more detail in section VIII.

Table 1: Lexington Land Use Classification

Land Use Classification	Number of Parcels	Total Area (acres)	Percentage of Total Area
Single Family	488	241.1	59.7%
Duplex	18	6.6	1.6%
1/2 Duplex	16	2.5	0.6%
Multi-Family	19	38.6	9.6%
Non-residential	59	109.7	27.2%
Undeveloped	18	5.1	1.3%
<i>Total:</i>	<i>618</i>	<i>403.7</i>	<i>100%</i>

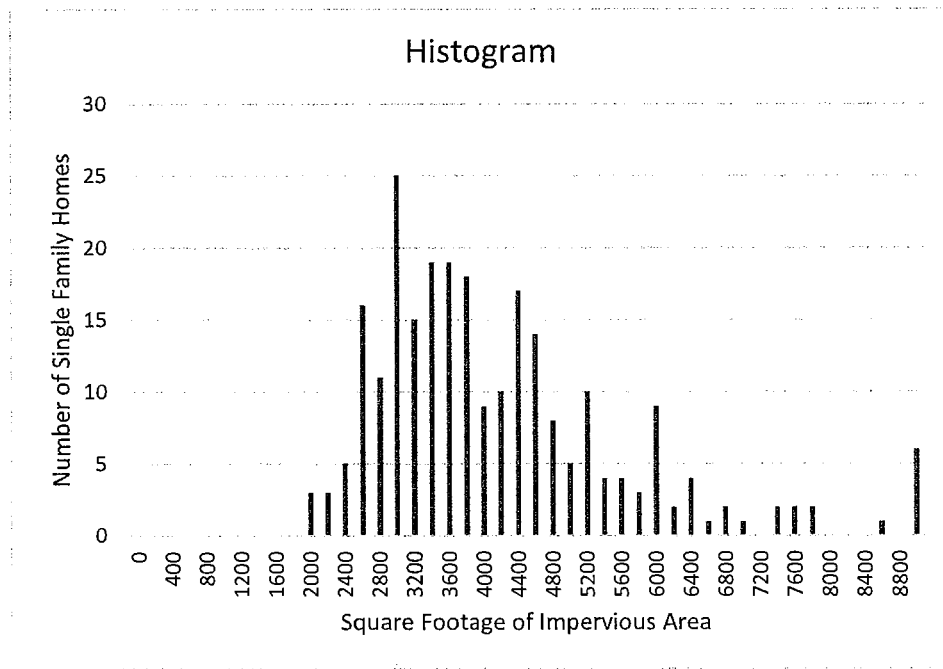

IV. ERU Determination

MSA has completed a preliminary assessment of all parcels within the City of Lexington for purposes of evaluating the feasibility of a stormwater utility.

A random sample of 250 single-family residential parcels (approximately 50% of the total SFR parcels) were reviewed and digitized to determine the ERU size. The average impervious area for SFR parcels was 4,112 square feet, with a percent confidence of 4.9%. This value was rounded to **4,110 square feet**, and is the recommended ERU size for Lexington.

**Figure 2** shows the sample distribution of impervious area for single family residential parcels.

Figure 2 – Single Family Residential Impervious Area Distribution

All of the duplexes within the City were also digitized to determine if two dwelling-unit properties had *on-average less impervious area than stand-alone single family dwellings*. The City of Lexington contained two different types of Duplexes: a single parcel encompassing both residential units, and two parcels (one parcel per residential unit). For simplicity of determining one ERU charge for all Duplex residents, these ERU values were calculated and averaged to 1.0 ERUs per residential unit, which equates to 0.5 ERUs per duplex customer.

Multi-family residential (MFR) parcels commonly have more variability in the amount of impervious area than other residential property types. Therefore, all of the multi-family residential properties (19) within the City were also digitized. The measured impervious area was used to determine the number of ERUs per parcel. A single-parcel mobile home development was treated as a Multi-Family Residential property, and was fully digitized to evaluate impervious area. If the SWU is to be implemented, newly constructed or recently rezoned properties should be evaluated to appropriately determine the site specific ERU.

**Figure 3** shows all of the properties with digitized impervious area within this study.

## MEMO

September 1, 2021

---

### V. Estimating the Total Number of ERUs within the City

The number of ERUs was assigned based on their land use, as described below.

**SINGLE FAMILY RESIDENTIAL:** Each of the residential properties was assumed to be 1 ERU.

**DUPLEX RESIDENTIAL:** Each residential customer within a duplex was assigned 0.5 ERUs as the average impervious area for each complete duplex property was approximately equivalent to the average impervious area of a stand-alone single family dwellings. Parcels with two units on a single parcel will need to have two unique IDs for billing purposes.

**MULTI-FAMILY RESIDENTIAL:** Multi-family residential parcels commonly have more variability in the amount of impervious area than other residential property types. Since there were only 19 multi-family parcels, all were digitized to determine the amount of impervious area. This was also done for the single-parcel mobile home park which was treated as Multi-Family. The impervious amount was divided by the ERU unit (4,110 sq ft) to determine the estimate the number of ERUs per parcel. Each parcel was rounded to one decimal point with a minimum of one ERU.

A comparison of this method of using impervious area, compared to billing by number of units multiplied by ERUs; determined that the ERU based structure was more equitable. Most multi-family parcels had significantly less impervious area per dwelling unit compared to single family homes or duplexes.

It should also be noted that the estimated ERUs were based on site plans in the case of the proposed Lexington Lofts Apartment Complex, (parcels owned by NW Land LLC, listed in Table 4). This property will begin phased construction and the first phase will become available in 2021. It is recommended this, and any other phased construction properties, be reevaluated and updated periodically to assess impervious area and appropriate ERU rates.

**NON-RESIDENTIAL:** Non-residential parcels can vary both in terms of parcel size as well as their relative amounts of impervious area. Therefore, to estimate the ERUs, the total impervious area on each parcel was divided by the ERU unit (4,110 sq ft) to determine the estimate the number of ERUs per parcel. Furthermore, all developed non-residential properties were assigned a minimum of 1 ERU. In the instance of multiple customers per parcel (for example: a single parcel with several shops present), the total number of ERU's was divided by the number of units/customers given by the city's customer database. If no unit number was specified or only one customer was detailed in the database, one unit per parcel was assumed.

**UNDEVELOPED:** Undeveloped properties were not charged (i.e. zero ERUs).

**Table 2** lists the number of parcels assigned to each land use classification and the number of ERUs associated with each type.

Table 2: Estimated ERUs by Land Use

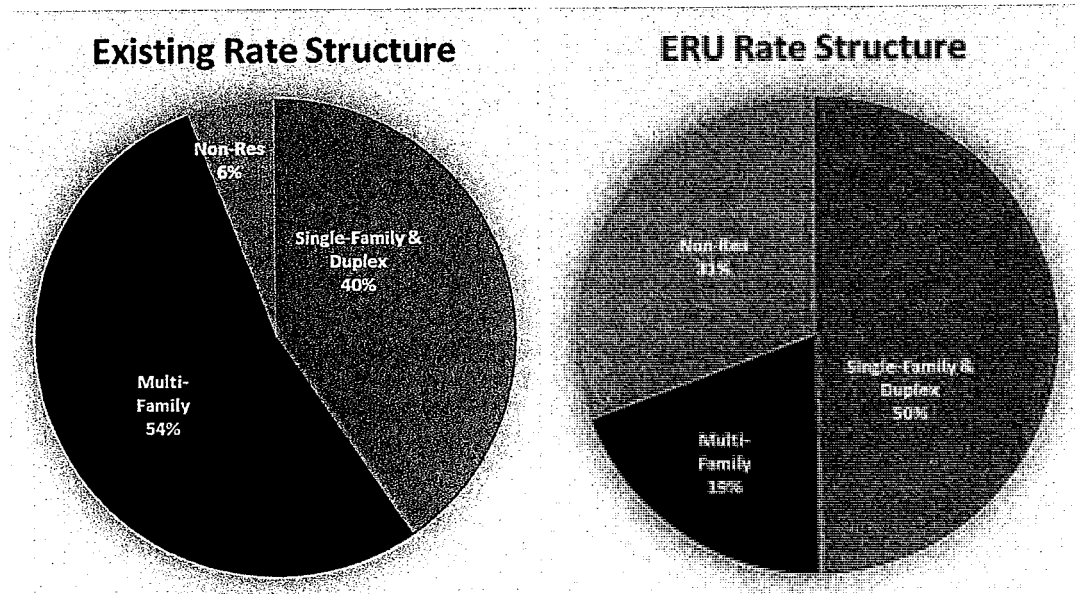

<b>Land Use Classification</b>	<b>Number of Parcels</b>	<b>Total Area (acres)</b>	<b>Number of ERU's</b>
Single Family Residential	488	241.1	488.0
Duplex	18	6.6	18.0
1/2 Duplex	16	2.5	8.0
Multi-Family	19	38.6	200.5
Non-Residential	59	109.7	316.4
Undeveloped	18	5.1	0.0
<b>Total:</b>	<b>618</b>	<b>403.7</b>	<b>1,030.9</b>

VI. Revenue Sources: Existing Flat Rate System vs. ERU-based Stormwater Utility

A switch from the current Base Rate System to an ERU based structure would shift the cost of the SWU away from residents and onto non-residential properties that contribute more load to the local infrastructure. It is MSA's recommendation that an ERU based structure would be a more cost effective and more equitable fee system to residents than the current flat-rate structure.

Based on the existing flat rate billing structure, MFR properties are billed equivalently to SFR properties and then multiplied by the number of units within the structure. MSA's review of the impervious area revealed this to be less than equitable, as most MFR properties have less impervious area per unit than single family homes. The ERU based structure takes the full impervious area, divided by the determined ERU rate (4110 sq ft), and distributes the cost equivalently per unit. This change in billing structure will cause a significant shift in the cost for MFR properties, especially when compared to Non-Residential properties, who will see changes in their bill depending on their impervious area rather than land use classification. This change is shown as a percentage in **Figure 4** comparing the current Flat Rate Structure to the proposed ERU Rate Structure.

Figure 4: Distribution of Stormwater Program Charge

VII. Estimated Revenue with an ERU Rate Structure

To precisely determine the total revenue from a Stormwater Utility using the proposed ERU Rate Structure, it is necessary to digitize all of the impervious area within the City for Non-Residential and MFR properties. This is not typically done for a feasibility study, but due to the size of the community of Lexington, full impervious area was prepared for this analysis.

The current flat rate structure for 2021 bills customers quarterly at a rate of \$8.55 for residential properties and \$11.60 for commercial properties. **Table 3** lists the possible annual revenue that could be generated for the three different quarterly ERU rates proposed (\$3.00/ERU/quarter, \$9.00/ERU/quarter, and \$15.00/ERU/quarter). This projected outcome and cost analysis also assumes full buildout for the Lexington Lofts Apartment Complex.

Table 3: Example Estimated Revenue with an ERU Rate Structure

Land Use Classification	Estimated ERUs	Percent of Total ERUs	Estimated Annual Revenue			Annual Revenue (based on Existing Flat Rate Structure)
			\$3/ERU/quarter	\$9/ERU/quarter	\$15/ERU/quarter	
Residential (SFR, Duplex, 1/2 Duplex, MFR)	714.5	69%	\$8,575	\$25,724	\$42,873	\$42,892
Non-Residential	316.4	31%	\$3,797	\$11,390	\$18,983	\$2,691
<b>TOTAL</b>	<b>1,030.9</b>	<b>100%</b>	<b>\$12,371</b>	<b>\$37,113</b>	<b>\$61,856</b>	<b>\$45,584</b>

A list of the estimated current “Top Customers”, including the city of Lexington, was created by grouping all parcels based on parcel ownership within the tax parcel record and ranking them based on number of total ERUs. This list was compared to the Customer List provided to MSA which was used in conjunction with the current city rates to calculate the existing base rate cost for each parcel owner. **Table 4** displays the estimated top customers, and a sample of annual charges based on a range of potential quarterly rates. Note that SWU charge rates reflect the ERU of 4,110 sq ft and proposed costs of \$3/ERU (which reflects a lowered rate than currently charged), \$9/ERU (which most closely reflects the city’s current base rate for residential customers), and \$15/ERU (for a higher estimate to account for possible budget increases in the future), per quarter. **Figure 5** shows the location and impervious areas of the top customers.

In Multi-Family and Non-Residential parcels, “Current Rates” are based on the existing Stormwater Resolution, attached as an appendix of this Memo, whereas ERU rates are based on impervious area. Rates were multiplied by units and were assumed to be customer based. Correct impervious area will need to be updated by the city periodically, especially in the cases of phased construction to verify correct charges to customers.

**MEMO**

September 1, 2021

Table 4: Top Customers based on current Stormwater Utility Feasibility Study.  
Estimated annual charge based on possible billing rates per quarter\*

Rank	Property Owner	Number of Parcels	Total ERUs per Customer	Estimated Annual SWU Charge			Annual Charge (based on Existing Flat Rate Structure)
				\$3/Quarter/ERU	\$9/Quarter/ERU	\$15/Quarter/ERU	2021
1	MENLO CAPITAL PARTNERS LLC	3	83.4	\$1,001	\$3,004	\$5,006	\$139
2	LEXINGTON CITY OF	13	58.1	\$697	\$2,090	\$3,484	\$371
3	NW LAND LLC	2	48.6	\$584	\$1,751	\$2,918	\$7,592
4	89 LEXINGTON LAKES LLC	1	21.1	\$253	\$760	\$1,267	\$1,664
5	CIRCLE PINES LAKE DRIVE LLC	1	13.7	\$164	\$493	\$822	\$46
6	K & B ENTERPRISES LLC	1	12.6	\$151	\$453	\$756	\$46

*\*The values presented in Table 4 are based on measured impervious area, using the same methodology described in Section IV. All parcels were grouped by Property Owner within the City's Parcel Information derived from GIS data as of March 2021, and the total ERUs for all parcels were combined using an ERU size of 4,110 square feet. This list should be viewed as preliminary and precise values will change if the SWU is implemented.*

VIII. Customer Database Notes

MSA was provided a Customer Database by the City of Lexington to evaluate for purposes of this study; however, the list only included Multi-Family and Non-Residential customers. The city stated that all single family homes and duplexes were charged the equivalent of one "Residential" rate per customer, and multi-family properties were multiplied by the number of units. In some cases, certain customer Parcel IDs were located outside of the City of Lexington. If these parcels are being serviced by the City, they will need to be added to the ERU database and digitized for correct cost and customer billing. Additionally several billing addresses and customer names did not match the most recent parcel information. This will need to be evaluated when creating an up-to-date customer list. The city also stated that each Commercial customer was charged the equivalent of one "Commercial" rate per customer.

IX. Steps to Implement a Utility

The stormwater utility feasibility study outlined in this memo is only the first step in the implementation of a formal ERU based stormwater utility. Should the City wish to proceed with utility implementation, the following minimum steps should be followed:

- 1.) *Determine that successful stormwater utility implementation is desirable and feasible.*
- 2.) *Create/update a stormwater utility customer database. This will involve determination of a specific ERU size for the City of Lexington and the verified measurement of impervious areas for all non-residential and multi-family parcels. Parcel IDs should be carefully reviewed to ensure the customer database is up to date. Much of this work has been completed as a result of this study.*
- 3.) *Pass an ordinance establishing the authority to implement the utility. The current utility was passed by a resolution; however, a formal adoption into the ordinance is recommended.*
- 4.) *Pass a resolution setting the utility rate. This may require an evaluation of the City's stormwater management program to be sure that the utility rate achieves the desired management goals within an acceptable time frame.*
- 5.) *Input the database into the City's billing software. This is typically completed by the community, as opposed to a consultant, due to familiarity with current billing software and general considerations for efficiency.*
- 6.) *Establish a plan to handle phased construction projects and periodic review of impervious area for accurate billing.*
- 7.) *Send customer bills.*

Appendix A

**CITY OF LEXINGTON  
COUNTY OF ANOKA  
STATE OF MINNESOTA**

**RESOLUTION NO. 20-02**

**A RESOLUTION ESTABLISHING RATES TO BE CHARGED FOR WATER,  
WASTEWATER AND STORMWATER SERVICES FOR YEARS 2020 AND  
2021**

**WHEREAS**, the City of Lexington provides water, wastewater and stormwater services; and

**WHEREAS**, the City of Lexington water, wastewater and stormwater utilities need to be self-supporting through the collection of user fees; and

**WHEREAS**, the collection of user fees is intended for operational costs and to accumulate funds for future infrastructure replacement;

**NOW THEREFORE, BE IT RESOLVED** by the City Council of the City of Lexington, Anoka County, State of Minnesota, as follows:

Water Service Rates, effective 1/1/2020

1. The following residential rates will be applied for quarterly water service (base plus usage):

	0-15,000 gal	15,001-30,000 gal	30,001-40,000 gal	40,000+ gal
Base	\$12.86	\$12.86	\$12.86	\$12.86
Usage	\$2.09	\$2.58	\$3.45	\$4.78

2. The following commercial rates will be applied for quarterly water service (base plus usage):

	0-15,000 gal	15,001-30,000 gal	30,001-40,000 gal	40,000+ gal
Base	\$12.86	\$12.86	\$12.86	\$12.86
Usage	\$1.85	\$2.28	\$3.05	\$4.22

Water Service Rates, effective 1/1/2021

1. The following residential rates will be applied for quarterly water service (base plus usage):

	<b>0-15,000 gal</b>	<b>15,001-30,000 gal</b>	<b>30,001-40,000 gal</b>	<b>40,000+ gal</b>
Base	\$13.60	\$13.60	\$13.60	\$13.60
Usage	\$2.20	\$2.71	\$3.62	\$5.02

2. The following commercial rates will be applied for quarterly water service (base plus usage):

	<b>0-15,000 gal</b>	<b>15,001-30,000 gal</b>	<b>30,001-40,000 gal</b>	<b>40,000+ gal</b>
Base	\$13.60	\$13.60	\$13.60	\$13.60
Usage	\$1.94	\$2.39	\$3.30	\$4.43

Wastewater Service Rates, effective 1/1/2020

1. The following rates will be applied for quarterly wastewater service:

Metered water service (base plus usage)	
Base:	\$11.81
Usage:	\$3.20 for each increment of 1 to 1,000 gallons of water consumed, with summer usage based on October through March average water usage.

Non-metered water service	\$54.05 per unit
---------------------------	------------------

Qualifying residential senior:	\$32.55
Qualifying residential senior is defined as a resident who is 62 years of age or older. Proof of age will be required by 1 (one) member of household and application for discount must be completed and filed at City Hall.	

Wastewater Service Rates, effective 1/1/2021

- 1. The following rates will be applied for quarterly wastewater service:

Metered water service (base plus usage)
Base: \$12.40
Usage: \$3.36 for each increment of 1 to 1,000 gallons of water consumed, with summer usage based on October through March average water usage.

Non-metered water service \$56.75 per unit

Qualifying residential senior: \$34.00
Qualifying residential senior is defined as a resident who is 62 years of age or older. Proof of age will be required by 1 (one) member of household and application for discount must be completed and filed at City Hall.

Stormwater Service Rates, effective 1/1/2020

- 1. The following rates will be applied for quarterly stormwater service:

Table with 2 columns: Residential (\$8.15), Commercial (\$11.05)

Stormwater Service Rates, effective 1/1/2021

- 1. The following rates will be applied for quarterly stormwater service:

Table with 2 columns: Residential (\$8.55), Commercial (\$11.60)

Additional Utility Fees, effective 1/1/2020:

- 1. The following rates will be applied for quarterly service:

MN Water Test Fee \$2.43

PASSED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF LEXINGTON THE 2ND DAY OF JANUARY, 2020.

## Video Production

Municipal Producer, Trevor Scholl, completed three productions in August. The shows include two projects he's been working on for a while with the City of Blaine and a piece on the MN Craft Brewers Guild at the State Fair. Programs were also produced by T.J. Tronson, Kenton Kipp, and Jeremy Millington for the city channels. Trevor reaches out to city officials and department contacts, every month, regarding potential programming for the channels. City staff and elected officials are encouraged to contact Trevor with any ideas or requests for programming.

▪ August Completed Videos/Playing on City Cable Channels & Streaming

Title	Producer	Runtime
Blaine Police Department Awards 2021	Trevor Scholl	00:10:43
POR Level 3: Sex Offender Relocation Video: City of Blaine	Trevor Scholl	00:53:14
MN State Fair Craft Brewers Guild	Trevor Scholl	00:02:54
Lino Lakes Blue Heron Days Parade	Kenton Kipp/J. Millington	00:29:30
Anoka County Board Meeting (8/10/21)	T.J. Tronson	00:29:29
Anoka County Board Meeting (8/24/21)	T.J. Tronson	00:51:52

Some projects that Trevor is working on or is scheduled to produce include:

- Fall Mayor's minutes
- Blaine Economics promotion
- Oak Park community church disc golf
- Anoka County community action program promo
- Spring Lake Park street projects
- Centerville business profiles
- Circle Pines virtual tour

# Equipment Consulting/Technical Support

## **Blaine**

- No assistance required.

## **Centerville**

- 8.30.21: Can't get speakers or any audio inputs or outputs to work. Showed Teresa how to reset the Symetrix. After resetting, the inputs and outputs worked. Had to power cycle the speakers to get them to come back on-line.

## **Circle Pines**

- No assistance required.

## **Ham Lake**

- 8.19.21: Installed document camera. Tested. Checked on reported camera issue but could find no problem.
- 8.26.21: Went to city hall to check on audio issue. Seems tied to document camera and podium mic. Should keep podium mic off when using document camera.

## **Lexington**

- 8.6.21: The camera had been tilted out of position. The camera doesn't have a remote so guided staff through repositioning. Will visit city hall if further issues.

## **Lino Lakes**

- No assistance required.

## **Spring Lake Park**

- No assistance required.

## **All Cities**

- No assistance required.

## Channel Management

Programming Coordinator, Michele Silvester, along with help from Eric Houston, and Trevor Scholl, is responsible for processing and scheduling the programming on the City channels. There are three categories of programs that are scheduled on the City channels; live and replayed meetings, NMTV staff created video content, and informational graphics pages. All categories of programming must be encoded, scheduled, and entered into the Tightrope playback system or entered into the Carousel video files. As each live meeting is being recorded at City Hall, it is routed to the North Metro TV head-end and then sent out over the cable system live. At the same time it is also encoded on a server for future playbacks. The following meetings were processed in August:

<b>Title</b>	<b>Producer</b>	<b>Runtime</b>
Blaine City Council Meeting (8/2/21)	Trevor Scholl	01:07:45
Blaine Special EDA Meeting (8/9/21)	T.J. Tronson	00:21:19
Blaine Planning Commission Meeting (8/10/21)	T.J. Tronson	00:06:18
Blaine City Council Meeting (8/16/21)	T.J. Tronson	02:05:57
Blaine Natural Resources Conservation Board Meeting (8/17/21)	Trevor Scholl	00:22:47

<b>28 New Programs</b>		<b>28:12:56 New Hours</b>

Meetings are scheduled for replay based on schedules requested by each City. Additional longer-length video programming, produced by NMTV staff, is also scheduled on the channels. With the arrival of the Carousel units, shorter-length videos and promos are loaded onto those devices, rather than being scheduled as separate playbacks. The short videos cycle through, with graphics pages, and play on the channels whenever a scheduled program is not playing. Depending on whether a City selected the split screen or full screen Carousel option, the shorter videos are cycling 24 hours a day. The table below outlines how many times a longer-length video program was entered into the Tightrope system, and played back on each City channel.

<b>City</b>	<b>Number of Times Programs Played</b>	<b>Hours Programmed on Channel</b>
Blaine	201	215:22:37
Centerville	75	110:13:20
Circle Pines	144	159:38:51
Ham Lake	64	64:46:58
Lexington	99	100:03:59
Lino Lakes	101	101:49:50
Spring Lake Park	118	75:02:49
<b>Totals:</b>	<b>802 Program Playbacks</b>	<b>826:58:24 Hours of Video Programming on Channels</b>

The last category of programming on City channels consists of bulletin board, or graphics pages, that display information about the City or about events and issues of interest to citizens. With the installation of the Carousel units, Eric Houston has assumed responsibility for updating the information on all seven channels. He works closely with each City's representative to ensure that all requested data slides are created and posted to the satisfaction of the City. Even though Eric is doing the work of creating the data pages, the Cities maintain editorial control. In addition to the graphics pages, the Carousel units play video. Trevor Scholl is responsible for encoding any short videos that are displayed. The following work was done for City Carousel units in August:

**Blaine**

- Transcoded and uploaded 1 video to Carousel.

**Centerville**

- Transcoded and uploaded 1 video to Carousel.

**Circle Pines**

- Transcoded and uploaded 1 video to Carousel.

**Ham Lake**

- Transcoded and uploaded 1 video to Carousel.

**Lexington**

- Transcoded and uploaded 1 video to Carousel.
- Created 2 new data pages for Carousel.

**Lino Lakes**

- Transcoded and uploaded 1 video to Carousel.

**Spring Lake Park**

- Transcoded and uploaded 1 videos to Carousel.
- Created 2 new data pages for Carousel.

Meetings on Demand

NMTV has created a video on demand service, with line-item bookmarking, for our Cities' meetings. In order to accomplish this, each encoded meeting has to undergo several steps. The meeting must first be transferred and transcoded from the playback

server to the video on demand server. Once that is done, a staff member must go through the meeting entering a bookmark at the start of each meeting line-item, and enter the corresponding line-item information. Next, the meeting is linked to the NMTV website's city meeting page for video on demand. The following number of meetings were bookmarked and/or placed on VOD for the Cities in August:

- **Blaine**  
6 meetings bookmarked and placed on VOD.
- **Centerville**  
5 meetings bookmarked and placed on VOD.
- **Circle Pines**  
3 meetings bookmarked and placed on VOD.
- **Ham Lake**  
4 meetings bookmarked and placed on VOD.
- **Lexington**  
2 meeting placed on VOD.
- **Lino Lakes**  
5 meetings bookmarked and placed on VOD.
- **Spring Lake Park**  
3 meetings bookmarked and placed on VOD

## Administrative

---

The issues dealt with in August include tallying new expense reports for additional COVID 19 costs and working with staff to develop updated designs for city Carousel pages.

### **COVID Expense Reimbursement Request**

- Collected receipts from PPE, streaming equipment expenditures, and building updates post CARES grant reimbursement.
- Calculated hours of work dedicated to COVID related equipment updates at city halls. Collected staff reports to verify hours.
- Created tables and charts summarizing expenditures and outlined Member City shares of cost, should it be approved.

### **Carousel Design Options**

- Met with staff to develop updated design for city Carousel channels currently employing split screens.
- Finalized design.
- Wrote memo explaining options for Operations Committee and Cable Commission.

### **Miscellaneous**

- Responded to questions from Blaine finance regarding 2022 budget.
- Worked with staff to provide dropbox for Centerville meetings for transcription of meeting minutes.
- Sent August legal report to Operations Committee and Cable Commission.
- Talked with staff regarding recording of Rice Creek Watershed District meeting.
- Checked with Denise at Ham Lake regarding audio issues on meeting recording.
- Emailed Mike Bradley for franchise renewal update.
- Filed subscriber complaint with Comcast.
- Read industry articles.

# North Metro TV

August 2021 Update

## Program Production

In August, a total of 65 **new programs** were produced utilizing the North Metro facilities, funds, and services. This constitutes **52:15:00 hours of new programming.**

- 23 programs were produced by the public
- 38 programs were produced by NMTV staff
- 4 programs were produced by City staff

## Van Shoots

The HD production truck was utilized for 20:45:00 hours of production in August. The following events were produced live and recorded for additional playback:

- Lino Lakes Blue Heron Days Parade
- Girls Tennis: Centennial vs. Blaine
- Boys Soccer: Centennial vs. Blaine
- Girls Soccer: Centennial vs. Blaine
- Volleyball: Roseville vs. Spring Lake Park

## vMix Live Streaming Shoots

The vMix streaming production system was not utilized in August.

## Production Highlights

### NMTV News Highlights

Each week Danika Peterson and Rusty Ray create a news program that highlights events, people, issues, and information important to citizens of our Member Cities. Some August highlights include:

- Anoka County Master Gardener: Fall Planting & Moving Flower Beds
- Farmers Markets Continue Providing Fresh Produce to North Metro Despite Challenges
- Blaine Receives State Funding to Begin Designs for Highway 65 Improvements
- Bikes for Kids Celebrates Ten Years, Says Goodbye to Leader
- Anoka Hennepin Struggling to Find Child Care Providers for Upcoming School Year
- North Metro Colleges Consider Mask Mandates as School Year Nears
- Local Gyms See Surging Interest Amid Olympic Gymnasts' Successes
- Anoka County Parks to Unveil Augmented Reality Enhanced Programs for Trails in 2022
- Lino Lakes Family Eager to Get Back to State Fair Food Stand Business
- Blaine Works Out Lucrative Land Deal with the State
- Lino Lakes to Offer Paid Fire Fighters More Money
- Ladies Golf Tournament Benefits Blaine Based Food Shelf Program
- Invictus Brewing Going All Solar Soon
- Former Mayor Tom Ryan Honored by League of Minnesota Cities at Blaine Council Meeting
- Efforts of Census Man Pay Dividends for City of Circle Pines
- Blain Census Results Show Larger Than Expected Growth
- Anoka County Master Gardener: Time to Harvest
- Anoka County Health Leaders Seeking Unvaccinated Groups With Clinics
- School Districts Make Masking Decisions Based on Evolving Numbers
- Lino Lakes Will Pay Consultant to Help Start Possible Hybrid Management of Fitness Center
- Long time Northtown Librarian Retires After Reaching Generations with Storytimes
- SBM/Centennial Fire Join Forces Under Unique Leadership Plan
- Family Keeps House Amid Major Lino Lakes Road Construction Process

In addition to daily playbacks of North Metro TV News on the cable systems, there are 927 local stories archived for viewers on the NMTV YouTube channel. The channel can be accessed through the [northmetrotv.com](http://northmetrotv.com) website.

### Commercial Projects

NMTV staff has been quite busy with commercial projects over the last couple of months. Over the summer we provided streaming services to the National Sports Center for several of their big events and recorded a parade for the City of Columbia Heights. A construction company in St. Paul is contracting with us to provide drone footage of various sites and Carleton College has hired us to provide drone footage of "move-in" day. Staff is also working on promos for the Anoka County Community Action Program and for the Minnesota Softball Military Appreciation Foundation. Finally, as always, the home movie film transfer service remains very popular.

### Ham Lake Website Project

Special Events Coordinator and UAS Remote Pilot, T.J. Tronson has been working with the City of Ham Lake to provide updated park and city photos for their website. T.J. has been utilizing both drone and standard field photography to provide the images. He has been taking photographs of every park in the city. Only nine parks left until the project is completed!

### Of Special Note...

Two things...first, the news team of Danika Peterson, Rusty Ray and Mike Johnson received an Award of Honor for the pandemic related promo "Stay a Rusty Ray Away." The award was presented by the National Association of Telecommunications Officers and Advisers (NATOA), a national advocacy group representing municipalities and cable commissions communications interests. The promo was submitted to NATOA's annual award competition. Second, Danika Peterson got a shout-out in an article in the Metro North Chamber of Commerce newsletter. In the Testimonial Time article written by Pam Powell, the Executive Director of Mom's Haven of Hope, Pam noted that the interview she did with Danika brought her together with a builder for her project.

### In Person Classes

Instructor, Eric Houston, wrapped up his five-week production series for public access users in August. The series focused on the basics of video production and included workshops covering cameras, tripods, microphones, editing, and studio shooting. The students got to utilize their newly acquired production skills by recording their own NMTV promo and by crewing an original in-studio talk show. All of the completed projects are currently playing on the public channel. Pictured to the left are five of the six graduates of our first live class series in over a year. Eric will be offering the classes again beginning in October.

### City Productions

In August, Municipal Producer, Trevor Scholl, completed three productions and took a two week vacation. The shows include two projects he's been working on for a while with the City of Blaine and a piece on the MN Craft Brewers Guild at the State Fair. Programs completed include:

- Blaine Police Department Awards 2021
- POR Level 3: Sex Offender Video
- MN Craft Brewers Guild at the State Fair

New and ongoing projects include:

- Fall Mayor's minutes
- Blaine Economics promotion
- Oak Park community church disc golf
- Anoka County community action program promo
- Spring Lake Park street projects
- Centerville business profiles
- Circle Pines virtual tour

Trevor touches base with contacts on a regular basis and also encourages Cities to contact him whenever they have an idea for a new show.

**Bill Petracek**

---

**From:** MWC <MWC@metc.state.mn.us>  
**Sent:** Wednesday, September 1, 2021 1:48 PM  
**To:** MWC  
**Subject:** 2022 Municipal Wastewater Charge

**Caution:** This email originated outside our organization; please use caution.

**MCES Customer Communities:**

On July 28, 2021, the Metropolitan Council adopted the 2022 Environmental Services Rates and Charges. This included the Municipal Wastewater Charge in the amount of \$249,955,000. This is an increase of 4.0% from the 2021 charge of \$240,342,000.

MCES continues to use an allocation method to calculate each municipality's charges. The method uses 2020 calendar year flow to allocate the \$249.955 million of total metropolitan charges to customer communities.

Your municipality's percentage of the overall system flow during that period is the percentage of the Metropolitan Wastewater Charge that will be charged to your community in 2022. We have included the calculation on the table below and will bill your municipality in equal monthly amounts in 2022. There were no material changes to the estimated MWC allocations provided to you in May.

Additional information regarding 2022 rates and charges is available here:

*Council Approved 2022 Rates and Charges:* [2021-176 \(metro council.org\)](#)

Please note that the MCES Sewer Availability Charge (SAC) will be \$2,485 in 2022, which is no change from prior year.

As always, MCES welcomes your comments, questions, and suggestions on our services. Feel free to contact me at (651) 602-1162 or e-mail me at [ned.smith@metc.state.mn.us](mailto:ned.smith@metc.state.mn.us). Please contact Kyle Colvin with questions about your community's wastewater flows at (651) 602-1151 or [kyle.colvin@metc.state.mn.us](mailto:kyle.colvin@metc.state.mn.us). Thank you!

Sincerely,

Ned Smith  
Director, MCES Finance

## 2022 Community Flow Data and Municipal Wastewater Charge

2022 Metropolitan Wastewater Charge to be allocated: **\$ 249,955,000**

**CITY OF LEXINGTON  
WORKSHOP SYNOPSIS  
Thursday, August 19, 2021  
Immediately following Council meeting  
City Hall**

1. Call to Order: Mayor Murphy
2. Roll Call: DeVries – Harris – Hughes – Winge

*Vice Mayor Harris called to order the workshop for August 19, 2021 at 8:25 p.m. Councilmembers present: Devries, Hughes, and Winge. Mayor Murphy was present via Zoom communication. Also Present: Bill Petracek, City Administrator; Chris Galiov, Finance Director.*

**3. Discussion Items:**

A. Discuss 2022 Preliminary Budget

*Petracek provided an overview of the preliminary budget. He explained that based on the increases to fire department and police department operations budget – 10% for F.D. and 8.6% for P.D. - that a preliminary levy will be recommended at 7%, with a possible 5% increase to the 2021 General Levy to offset the increased costs to police and fire operations budget.*

*Vice Mayor Harris questioned the need to increase the General Levy to 5% with the increase in liquor store revenues in 2020. She stated that this year is not a good year to increase it. Petracek explained that last year a 0% increase to the General Levy creates a need to increase it for 2022 budget Discussion ensued. Petracek explained that Lexington's portion of the police budget went up \$87,000 due to the increase of Lexington's population and how the Centennial Lakes JPA calculates the three city's annual contribution to the budget – population, call volume, and a formula determined by the IACP – International Association of Police Chiefs.*

*Petracek also explained that the fire department's budget has gone up due to increase in call volume and salaries being paid to firefighters. Petracek also explained that an increase to the fire fighter retirement contribution is also being proposed. He stated that there will be more discussion on this as final budget estimates are submitted. Discussion ensued.*

*Petracek also informed the Council that he had spoken with the county assessor, and he was informed that none of the new development – Lexington Lofts Phase 1 or O'Reilly's – would be included on the tax roll for 2021. He added that the property owner's in Lexington would not benefit from the new tax valuation with this year's tax levy. Discussion ensued.*

B. Discuss American Rescue Plan Act Funds (ARPA)

*Petracek provided an overview of his memo regarding the funds received from the American Rescue Plan Act. He stated that we have received the first payment in the amount \$140,313; the second payment will be \$140,313 totaling \$280,626. The second payment will be received May of 2022. The City of Lexington would have until December 31, 2024 to spend the funds.*

*Petracek explained his recommendation to consider:*

*We are in need of replacing our fire hydrants in Lexington– 70 fire hydrants – at an estimated cost of \$8000/fire hydrant – Total cost \$560,000. Replacement of fire hydrants has been put on hold over the past few years. This was due to the money that was spent on the new Wellhouse in 2017, and the lack of funds available for the gradual replacement.*

*The fire department is in need of replacement of air packs for the fire fighters – estimated cost \$120,000. Discussion ensued. Petracek added that these recommendations would fall under the guidelines of how the ARPA money is to be spent.*

*Petracek stated he would be having more discussions with the Council regarding ARPA funds along with the proposed 2022 budget, as the final budget numbers are determined.*

4. Staff Input

None.

5. Council Input

*Councilmember Devries stated that a police officer was speeding off Lake Drive onto Restwood by Cowboy's without lights and sirens while chasing another motor vehicle last Saturday at about 11:00 p.m. He felt this was very dangerous and the police chief should know about this. Petracek stated he would let Chief Mork know.*

6. Adjourn

*Councilmember Devries made a motion to adjourn at 9:26 p.m. Councilmember Hughes seconded the motion. Motion carried 5-0.*

**CITY OF LEXINGTON  
SPECIAL WORKSHOP SYNOPSIS  
Thursday, September 2, 2021  
Immediately following Council meeting  
City Hall**

1. **Call to Order:** Mayor Murphy
2. **Roll Call:** DeVries – Harris – Hughes – Winge

*Mayor Murphy called to order the special workshop for September 2, 2021 at 7:10 p.m. Councilmembers present: Devries, Harris, Hughes, and Winge. Also Present: Bill Petracek, City Administrator; Kurt Glaser, City Attorney; Steve Winter, City Engineer; Bill Chang, MSA Consultants; Representative Donald Raleigh.*

**3. Discussion Items:**

- A. Discuss funding of Lexington’s water system with Representative Don Raleigh.

*Representative Don Raleigh was present to discuss the potential for obtaining state and federal funding for our water utility infrastructure. Representative Raleigh explained the process he would use to secure funds through the infrastructure bill being proposed at the federal level. Discussion ensued.*

*The City Council discussed with Representative Raleigh the need for funding improvements to our water system to secure the future of the City of Lexington. Bill Chang, MSA Consultants provided information to Representative Raleigh regarding the water system feasibility study currently being formulated.*

Lexington City Administrator

From: Gary Grote  
Fire Chief

Subject: Equipment Purchase

Bill, the 2021 Fire Chiefs convention is coming up next Month and there is some equipment that I would like to purchase during the convention. They typically have some discounts during the event and would like to take advantage of all savings.

**K12 saw** - used to gain entry into needed areas such as metal roofing, modular housing, garage spaces, etc.

**Battery operated high flow fans** – with the development of all of the apartment buildings the gas-powered fan is not allowed inside a structure and it may be difficult to find an electrical outlet near the needed location for the electric fan.

I have attached the quote for the needed equipment - \$12,552.00

With possible savings on equipment during this event I want to ask for some possible additional funding of up to \$8,000. All of this funding will be from the Fire Department equipment account.

Please add this to the next available council meeting agenda for discussion/approval. Please feel free to contact me should you have any questions.

Thank you

Cc: File

**ENTERTAINMENT/SPECIAL EVENT LICENSE APPLICATION**

APPLICATION FOR:  Annual Entertainment License \$ 200.00  
 Single Use Special Event Permit \$ 300.00

The Council shall act upon all entertainment license applications at a regular meeting within sixty (60) days of the completed application and fee being received by City staff. Inaction by the Council within this period is a denial of the application.

No entertainment license is valid until approved by the Council and the appropriate fees are paid to the City.

Licenses are valid only for the date(s) specified on the license. Annual licenses are valid from July 1st through June 30th of the following year, or pro rata from the date granted through June 30th.

**1. APPLICANT INFORMATION**

Attach a written approval from the organization(s) in whose name the event will be advertised which authorizes you, the applicant, to apply for this special event permit on their behalf.
